

Towns Fund Engagement Pledge

Over £70 million has been secured for Ashfield as part of the government's Towns Fund, Towns Fund Accelerator Fund and the Future High Streets Fund. Together with co-funding, this will bring well **over £100 million of investment** into Ashfield over the next five years.

This funding provides a **once in a lifetime opportunity** for us to make a real and long lasting change in Ashfield. The planned projects will regenerate the area and create fantastic opportunities for the whole District.

As a principal partner of Discover Ashfield, we have supported and developed these funding bids along with other partners and are keen to engage with key stakeholders about the planned projects.

Therefore, we,

Portland College

pledge to:

- 1. Be a part of the Funding Engagement Group.**
- 2. Share regular information and updates about the planned projects to our stakeholders via our website, relevant publications, and social media channels.**
- 3. Continually look for new ways and opportunities to engage with our stakeholders about the planned projects.**
